

KORO® BY IMANTS TopDrain 1500

The TopDrain 1500 is a unique multifunctional machine that trenches, removes spoil, injects sand and re-compacts all in one operation. Designed for sportsfields and golf course fairways, the TopDrain benefits include; material and labour savings, faster processing times and less surface contamination than conventional methods. The sand grid created by the TopDrain complements existing drainage systems.

Specification

Working width / Overall width	1.50m / 2.75cms
Working depth	15 - 225mm
Number of cutting blades	3
Spacing of blades	50cm
Thickness of blades	40mm
Weight (approx)	3300kg (unladen)
Power requirement	95hp Creep gear
Tractor requirements	540 pto. 2 x double, 1 x single spool, 12v plug
Operating speed	0 - 1.8mph (0 - 3kph)
Options	Extended side conveyor. Hopper vibrator
