1200 FIELDTOPMAKER®

The FIELDTOPMAKER® 1200 is a heavy-duty fraise mower, for removing unwanted surface matter such as poa-annua, thatch, weeds or the entire surface to a depth of 50mm. It has a side arm elevator to remove debris directly into a trailer. The FIELDTOPMAKER® 1200 is for compact tractors of around 35 - 50 hp, and is ideal for both fine turf such as golf greens & tees, tennis courts and outfield turf on sports fields and golf course fairways. The elevator folds flat for transport.

Specification

Working width / Overall width	1.20m wide / 1.60m wide
Working depth	0 - 50mm deep
No. of digging blades	64 (36 x LH, 32 x RH)
No. of scarifying blades	70 (1.5mm or 3.0mm thick)
Scarifying blade spacing	34mm
Number of Terraplane® blades	36
Number of Universe® blades	(10mm) 120 on every holder
Number of Universe® Finesse blades	(5mm) 120 on every holder * (3mm) 120 on every holder *
Weight	1065kgs (depending on rotor fitted)
Power requirement	35 - 50hp. Creep speed or hydrostatic drive required
Tractor requirement	540 pto. 30ltr/min hydraulic flow. 2 x double acting spool
Operating speed	0 - 1.2mph (0-2kph) with digging rotor and Terraplane® rotor 0 - 2.4mph (0 - 4kph) for Universe® rotor 0 - 3.7mph (0-6kph) with scarifying rotor
Optional Accessories	Mid mounted roller

* different configurations are available
