1500 FIELDTOPMAKER®

The FIELDTOPMAKER® 1500 is a heavy-duty fraise mower, for removing unwanted surface matter such as poa-annua, thatch, weeds or the entire surface to a depth of 50mm. It has a side arm elevator to remove debris directly into a trailer. The FIELDTOPMAKER® 1500 is for mid-range tractors of around 50 - 65 hp, and is ideal for sports pitches & golf fairways. The elevator folds flat for transport.

Specification

Working width / Overall width	1.50m wide / 1.90m wide
Working depth	0 - 50mm deep
No. of digging blades	52 (26 x LH, 26 x RH)
No. of scarifying blades	88 (1.5mm or 3.0mm thick)
Scarifying blade spacing	34mm
Number of Terraplane® blades	45
Number of Universe® blades	(10mm) 150 on every holder
Number of Universe® Finesse blades	(5mm) 150 on every holder * (3mm) 150 on every holder *
Weight	1150kgs (depending on rotor fitted)
Power requirement	45 - 65hp. Creep speed or hydrostatic drive required
Tractor requirement	540 pto. 30ltr/min hydraulic flow. 2 x double acting spool
Operating speed	0 - 1.2mph (0-2kph) with digging rotor and Terraplane® rotor 0 - 2.4mph (0 - 4kph) for Universe® rotor 0 - 3.7mph (0-6kph) with scarifying rotor
Optional Accessories	Mid mounted roller

* different configurations are available
