

VAN VUUREN

## TurfTick® 2316

Compact, proven, universal, economical, and durable, it is ideal for turf growers with a harvest capacity of approximately 900m<sup>2</sup> per hour. Due to its compactness, the TurfTick® 2316 offers less downtime compared to other automated sod harvesters. This results in high production efficiency and low operating costs. The high weight of the TurfTick® 2316 makes it possible to harvest a constant thickness of turf rolls, even in difficult conditions. This results in a top-quality product. In addition, this machine is designed for low maintenance costs and a long service life. We want to make the everyday life of our turf growers easier and more efficient. This sod harvester is ideal for turf growers who want to (continue to) grow or innovate.

### Specification

Cutting width	16 inch (40cm), upon request 18 (45cm) or 24 inch (60cm)
Cutting length	1,66m (3 turf rolls/2m <sup>2</sup> ); 2m (0,8m <sup>2</sup> ); 2,5m (1m <sup>2</sup> )
Capacity	Up to 900 m <sup>2</sup> per hour depending on pallet size
Width of the combination	Approximately 3 to 3.5 meters depending on the tractor and the tractor tires
