Pik'r®-X

The Pik'r®-X is a versatile robotic range picker, capable of operating with up to three purpose-built picker gangs. It features industry-leading technology, including an advanced sensor array for obstacle detection and avoidance, high-precision satellite-guided autonomous navigation and up to 12 hours of continuous runtime. With a three-gang configuration, it can collect up to 3,600 golf balls per circuit, with an optional automatic ball-dumping mechanism. Each heavy-duty picker gang features three baskets, each holding up to 400 golf balls. Using artificial intelligence, the Pik'r®-X monitors basket capacity and automatically returns to its designated home position when full, ready for manual or automatic basket emptying.

Specification

Pik'r size (LxWxH)	53" x 48" x 32" (1.4m x 1.2m x 0.8m).
Pik'r with range picker	127" (3 gang) x 32" (3.4m x 2.1m / 3.2m x 0.8m).
Length / Height	133" (3.4m) / 32" (0.8m).
Width	2 gangs 86" (2.2m) 3 gangs 130" (3.3m).
Weight	620 lb (280 kg).
Maximum Speed	Up to 4.8 mph (7.7 kph).
Coverage	Up to 6.2 acres (2.5 hectare) per hour.
Capacity	Up to 3,600 balls per circuit with 3 gangs.
Motors	48v Brushless DC.

Collision Avoidance

Laser distance sensor + Cameras using artificial intelligence + physical and remote e-stop.

Battery

Up to 12 hours continuous run time; safe lithium chemistry with 5-year warranty.

Optional Accessories

Automatic ball-dumping mechanism

Campey supply market leading, innovative turf care machinery worldwide, we're continually researching new techniques and refining existing practices to help turf care professionals achieve perfection.
