

CAMPEY™

Electric Sarel Roller

Ideal for bowling greens and cricket squares

The CAMPEY™ Electric Sarel Roller is a high-quality 60 cm aerating roller designed for sports turf care, specifically for soil aeration and improved grass health. With its sharp spikes, the roller effectively penetrates the soil, enhancing air circulation and water absorption. This process reduces soil compaction and promotes stronger root growth. The tool is ideal for areas up to 3,000 m², making it efficient for both small and large sports turf spaces. It features a transport roller that helps protect the spikes during movement, ensuring durability. Powered by a battery, which allows for eco-friendly operation. The battery provides ample runtime to cover large areas, and its silent operation makes it ideal for noise-sensitive environments.

Specification

Diameter spike	0,8 cm
Diameter spiked roller	39 cm
Dimensions (W x D x H)	66 x 49 x 145 cm
Punctures per m ²	223 St.
Quantity of spikes	70 St.
Area coverage per battery charge	ca. 3.000 m ²
Quantity of batteries / drives	1 / 1
Total weight	37 kg
Battery performance / type	612 Wh / Li-Ion
Operating voltage	36 V DC
Output voltage	42,5 V DC / 5 A

Campey supply market leading, innovative turf care machinery worldwide, we're continually researching new techniques and refining existing practices to help turf care professionals achieve perfection.
