

Perfecting Play™

CAMPEY™

Innovative machinery designed by turf care experts for turf care experts.

Available exclusively from Campey Turf Care Systems

“The pursuit of innovation is far more satisfying and rewarding than merely trying to replicate what others have done”

Richard Campey - Chairman

CAMPEY™

Honest, practical turf care experts

Richard Campey detected an untapped market need. He realised that there was a role for a specialist supplier of high quality purpose built equipment that would enable turf managers to meet the increased demands placed on modern sports turf surfaces.

Perfecting Play™

CAMPEY™

Speedresser™ 18H

The Campey™ SPEEDRESSER™ 18H is a bulk drop-spreader designed to handle all topdressing materials. The 4 flotation tyres on a pivoting axle minimise the risk of turf damage and compaction. The high work rate enables the spreading of dressings up to depths of 2mm - 75mm in one pass, making it ideal for golf courses and sports fields use, both with private clubs, local authorities and contractors. The Campey™ SPEEDRESSER™ 18H requires a tractor of at least 30hp and is driven hydraulically from the tractor via an agitator and twin rollers.

CAMPEY™

Speedresser™ 24H

The Campey™ SPEEDRESSER™ 24H is a 2.4m wide drop-spreader designed to handle all topdressing material. The four flotation tyres on a pivoting axle minimise the risk of turf damage and compaction. The high work rate enables the spreading of dressings up to depths of 2mm - 75mm in one pass, making it ideal for golf courses and sports fields use, both with private clubs, local authorities and contractors. The SPEEDRESSER™ 24H requires a tractor of at least 75hp and is PTO driven via a heavy-duty transmission to an agitator and twin rollers. The twin rollers are now hydraulically adjustable against a pre-set stop to alter spreading rate applications.

CAMPEY™

Rake O Rotor

The Rake O Rotor is a bi-directional 2-speed rotor allowing for operation in both directions, featuring a 25-degree angle and 28-degree tilt for ease in swaling and ditching. Oscillating gauge wheels lock in a level position for 3 point hitch use for reliable operation, and the dual-motor design delivers 40% more power whilst eliminating the need for outside bearings and chains. The Rake O Rotor also features a floating rotor design and increased durability with carbide teeth, ditch cutters and side shield. The Rake O Rotor can be used on a 3 point hitch or a skid steer hitch system.

CAMPEY™

Sportsfield Harrow

The CAMPEY™ Sportsfield Harrow is a tractor mounted implement for aggressive surface grooming. It can be used on turf, for standing prone grasses, dragging out dead or dying organic matter, or creating a tilth prior to seeding. The Campey™ Sportsfield Harrow also has an application for grooming on hard porous surfaces and is also ideal for gravel paths where regular use will prevent the accumulation of moss and algae. This 3-point linkage model can be mounted on all compact tractors of around 25hp and above.

CAMPEY™

UNIRAKE™

The Campey™ UNIRAKE™ is designed for and by leading groundsmen to accurately maintain natural and synthetic grass including hybrid surfaces. The Campey™ UNIRAKE™ offers high intensity grooming that can be calibrated in its severity.

“ We looked to the UniRake to improve our maintenance operation on the Desso constructed pitches and to take some of the weaker grasses out. This is because the pitches get quite thick before the end of the season, but we also use it during the renovation as well, and It's been a huge success for us. ”

Andy Jackson,

Head Groundsman, Stoke City Football Club

CAMPEY™

Uni-Scratch

The Campey™ Uni-Scratch is the ideal solution for those looking for professional and effective maintenance of natural and synthetic grass surface.

The Campey™ Uni-Scratch has been developed to infill or refill when installing or looking after synthetic grass carpets. It can also be used for the final organic matter removal on natural grass hybrid carpet pitches when carrying out annual renovations.

The Uni-Scratch moves on 4 supporting rollers which are adjustable in height to allow the most appropriate working depth. The rotors can be equipped with springs or linear brushes in PPL. Fits on tractors of at least 30HP.

CAMPEY™

Uni-Brush

The Campey™ Uni-Brush Front Sweeper has been developed to fit tractors from 18 to 60 Hp. The compact design improves the handling to guarantee a fast and accurate work in any conditions.

The Campey™ Uni-Brush Front Sweeper is equipped with roller brushes, suitable for snow removal, dirt and debris removal on driveways. Extremely versatile for any kind of work, the right tool for cleaning driveways, service areas, parking lots and yards, and snow removal. The gearbox, featuring fully hardened steel gears and ball bearings in oil bath enclosed in a cast-iron housing, and the double-chain secondary transmission reduce maintenance to a simple periodic check of the oil level and brush wear.

CAMPEY™

Core Collector

The Campey™ 'Core Collector' is an accessory that can save you time and labour costs, when core removal is necessary after aeration. As your aerator is operating, the Core Collector picks up, contains & moves the cores to the collar, and when lifted to make the next pass the cores are deposited on the collar. The Core Collector can be mounted in a matter of minutes on walk behind & tractor drawn aerators. Removal is just as simple and can be stored easily with virtually no maintenance required.

CAMPEY™

Triple V Brush

The Campey™ Triple V Brush is a tractor mounted implement for brushing in topdressing removing worm casts, standing up grass prior to mowing and general presentation on natural turf.

The Campey™ V Brush is also suitable for use on sand-filled and 3G synthetic pitches for taking out scuffs and footprints, re-distributing infill and promoting a vertical sward. The reversible mounting frame enables the V Brush to be mounted on the rear or front linkage on tractors of 18hp and above. Individual brush sections can easily be replaced when worn.

CAMPEY™

Triangle Brush

A tractor mounted Triangle Brush which is ideal for standing up the pile, brushing surface infill to an even level finish and eye-catching presentation.

CAMPEY™

Hand Drag Brush

Heavy-duty hand drag brush for brushing in topdressing, removal of dew and for brushing and levelling hard porous areas, as well as for use on sand filled synthetic surfaces.

CAMPEY™

Front Mounted Brush

for Pedestrian Rotary Mowers

Designed for fitting to Honda, Kaaz
and Lawnflite pedestrian rotary mowers

CAMPEY™

Synthoflex Brush

A 3 point linkage mounted brush suitable for compact tractors of 15hp. The Synthoflex brush is designed for regular use on all artificial surfaces to help stand up the pile and level the rubber crumb. The stiffness of the bristles can be easily adjusted using the plastic stiffening board on the all galvanised / plastic construction unit.

CAMPEY™

Dragmats

The Campey™ Dragmats come in various sizes and are available in heavy-duty reinforced rubber or steel construction. Dragmats are ideal for rubbing-in topdressings and dew and clippings dispersal. Small mats can be hand-pulled, while the wider units are more suited to towing or mounting on the optional 3-point frame. Available in four different widths and two different thicknesses (rubber) for various handling applications and tasks.

CAMPEY™

LineMarker

LM3010 / LM3012

The Campey™ LM3010 / LM3012 is a simple, durable and easy to operate liquid transfer line marker. Marking material is transferred from the 30ltr hopper to the 10cm or 12cm wide marking wheel by a grooved rubber roller, giving even and accurate lines with the front roller, allowing marking up to the flag or post. The marker features adjustable tubular steel handles, pneumatic tyres and an adjustable flow rate. Recommended marking materials include propriety marking paints, emulsion paint, etc. Always check marking materials comply with H.S.E guidelines for sports field use.

CAMPEY™

Mega Magnet

The Mega Magnet has been designed for use on turf areas after events such as concerts and help clean the pitch of any metal debris such as screws, bolts and other metal objects not wanted on the surface.

CAMPEY™

Seed Shot™

Perfect for targeted seeding post-game, depositing a precise quantity of seed into the soil for optimal germination rates.

- Makes a hole for the seed to go into
- For Rye grass or similar size seed
- 19 x holes
- 7mm diameter
- Up to 20mm deep
- Approx 22mm radial distance apart
- Weighs 3.5KG

CAMPEY™

Groundsmower Trailer

The Campey™ Groundsmower trailer is ideal to move any grounds mower around easily and efficiently. Designed to be towed by any utility vehicle, or tractor. Manual lowering of trailer bed to allow effortlessly loading of the mowers, reducing unnecessary damage to the rollers on the cutting units. Can accommodate up to 2 mowers (depending on size). Equipped with safety bar to keep mower(s) in position when travelling.

CAMPEY™

TPC Easy Load Trailer

The Campey™ TPC Easy Load trailer is ideal for transporting the Toro Procore 648 to wherever it's being used. The Procore can be loaded with swath boards, with or without a core collector fitted. The fully galvanised trailer, complete with 50mm ball or clevis drawbar and a locking mechanism, makes for safe, easy transportation (travelling up to 15mph/25kph), with a ratchet strap fitted over the front wheel to secure it.

CAMPEY™

Easy-Load Trailer

Specialist easy-load trailer for transporting machinery on roads and across turf areas. Designed to transport the Air2G2, it will also accommodate other popular turf machinery like the Toro Procore, John Deere Aeracore, and small ride-on mowers. Fully road worthy, with brakes and lighting, the tail-board ramp lowers to allow safe and easy loading, and the tie-downs supplied will secure machinery in place. Supplied with spare wheel.

CAMPEY™

TDS2 Sub surface sports turf decompactor

The Campey™ TDS2 is a heavy duty twin leg subsoiler designed specifically for the turfcare industry. Designed to operate behind a 40hp tractor on turf tyres, the Campey TDS2 is easily adjusted to relieve compaction and aid drainage at depths between 9.5 and 37.5cm. Weighing less than 430kgs and fitted with Cat I and Cat II hitch, the Campey TDS2 is designed to deliver a sub-surface shattering effect quickly and effectively with minimum surface disturbance. This creates fissures for grass roots to into, allows excess water to drain and links up existing drainage all without the need for external hydraulics or PTO.

Designed and manufactured in the UK by their highly skilled production team, Sumo has a worldwide reputation for the highest quality, durable cultivation equipment. This combined with Campey's renowned reputation for innovation in the turfcare industry has brought two market leaders together to deliver a simple but highly effective sub surface decompactor.

CAMPEY™

Landscaper

The Campey™ Landscaper is designed to construct a well graded, tilled and pulverized seed bed which is the first step to a healthy durable sward. Available in 2 different widths the Landscaper has the flexibility to carry out a number of different functions to suit the size of tractor available and the area of land to be prepared. The base unit will accept a Ripper Bar to break into a compacted surface, a levelling harrow and a Crumber Roller to pulverize the soil & lightly restore the surface. An optional seed hopper attachment can also be fitted to complete a one-pass operation.

CAMPEY™

Aeraseeder

The Campey™ Aeraseeders are a range of heavy-duty '2-in-1' overseeders designed for overseeding greens, tees, sports fields & other similar fine turf surfaces, with minimal disruption to the existing sward. The unique angled coned rollers produce approx 1750 holes per sq. metre, and the rear mounted brush ensures that seed is swept into the holes created by the coned roller. The hopper has an internal agitator to ensure a smooth seed flow and a floating headstock ensures good contour following. Available in 2 working widths. The Aeraseeder can be supplied coned / coned or coned / flat roller.

CAMPEY™

Pedestrian AeraSeeder

The 60cm Pedestrian AeraSeeder from Campeys provides simple, yet accurate initial and overseeding in those “hard to get at” places. At only 83cms wide, with a seeding area of 60cms, this mighty little machine will quickly overseed your golf greens, cemeteries, goal mouths, garden areas, and any other bare areas. The multi-spiked roller produces approx. 800 perforations per square yard, effectively saturating the top surface with a network of holes. This network, combined with our stainless steel seed apertures, brush, and smooth packing roller systems, offers the highest percentage of grass seed germination.
