VREDO

Synergy Compact

The Vredo Synergy Compact offers the advantages of the double disc system with a row spacing of 70 mm combined with the distinctive “Stitch roller”. This roller sows with flat, sharp teeth instead of the commonly used conical points. In the resulting short cuts with a row spacing of 23 mm, the seed is really locked into the soil. This achieves the same germination results as seed inserted in the soil using the double disc system. The short distance and distribution of the seedlings creates a fantastic homogeneous growth pattern. By using both sowing techniques in a single operation, there is no need for another machine. In other words, it offers the best of both worlds, making this a unique machine for the renovation of hybrid sports fields, among other things.

Model	DZ5 100	DZ5 140	DZ5 180	DZ5 220
Working width	94.5 cm	137cm	179cm	221cm
Volume of seed hopper	165 litre	235 litre	303 litre	375 litre
Weight	540kg	775kg	1,088kg	1,355kg
Tractor power	30HP	40/50HP	50/60HP	70/60HP
Options	Suitcase weight a 20 kg Wheel set with drawbar (models 140/180/220) Drawbar with cylinder relief (model 140/180/220)			

Campey supply market leading, innovative turf care machinery worldwide, we're continually researching new techniques and refining existing practices to help turf care professionals achieve perfection.
