

**CAMPEY™**

# UniSeeder

The Campey™ UniSeeder combines an integrated 120-litre air seeder with the proven technology of the Campey™ UniRake to deliver high-intensity grooming and precision seeding in a single pass, improving efficiency across natural, synthetic, and hybrid surfaces. Designed by leading groundsmen, the Campey™ UniSeeder provides adjustable grooming to remove thatch, lift lateral growth, and prepare an ideal seedbed, while the mounted air seeder applies seed accurately across the full width of the machine. Featuring speed-dependent dispensing, variable fan speed, and simple calibration with memory for up to 20 settings, it offers a fast, flexible, and user-friendly solution for renovation and routine overseeding while improving turf performance and reducing labour and passes across the surface.

## Specification

Working width	2.0m
Length	1.80m
Number of tines	136
Tine length	1337mm
Weight (approx)	265kgs
Power requirement	25hp +
Options	Brush

Campey supply market leading, innovative turf care machinery worldwide, we're continually researching new techniques and refining existing practices to help turf care professionals achieve perfection.
